

About Nemak

Nemak is your innovative partner in lightweighting solutions for powertrain, structural components and e-mobility for almost 40 years. We are specialized in the production of high complex aluminum components for the automotive industry such as cylinder heads, engine blocks, transmission parts, shocktowers, longitudinal members, e-motor and e-battery housings.

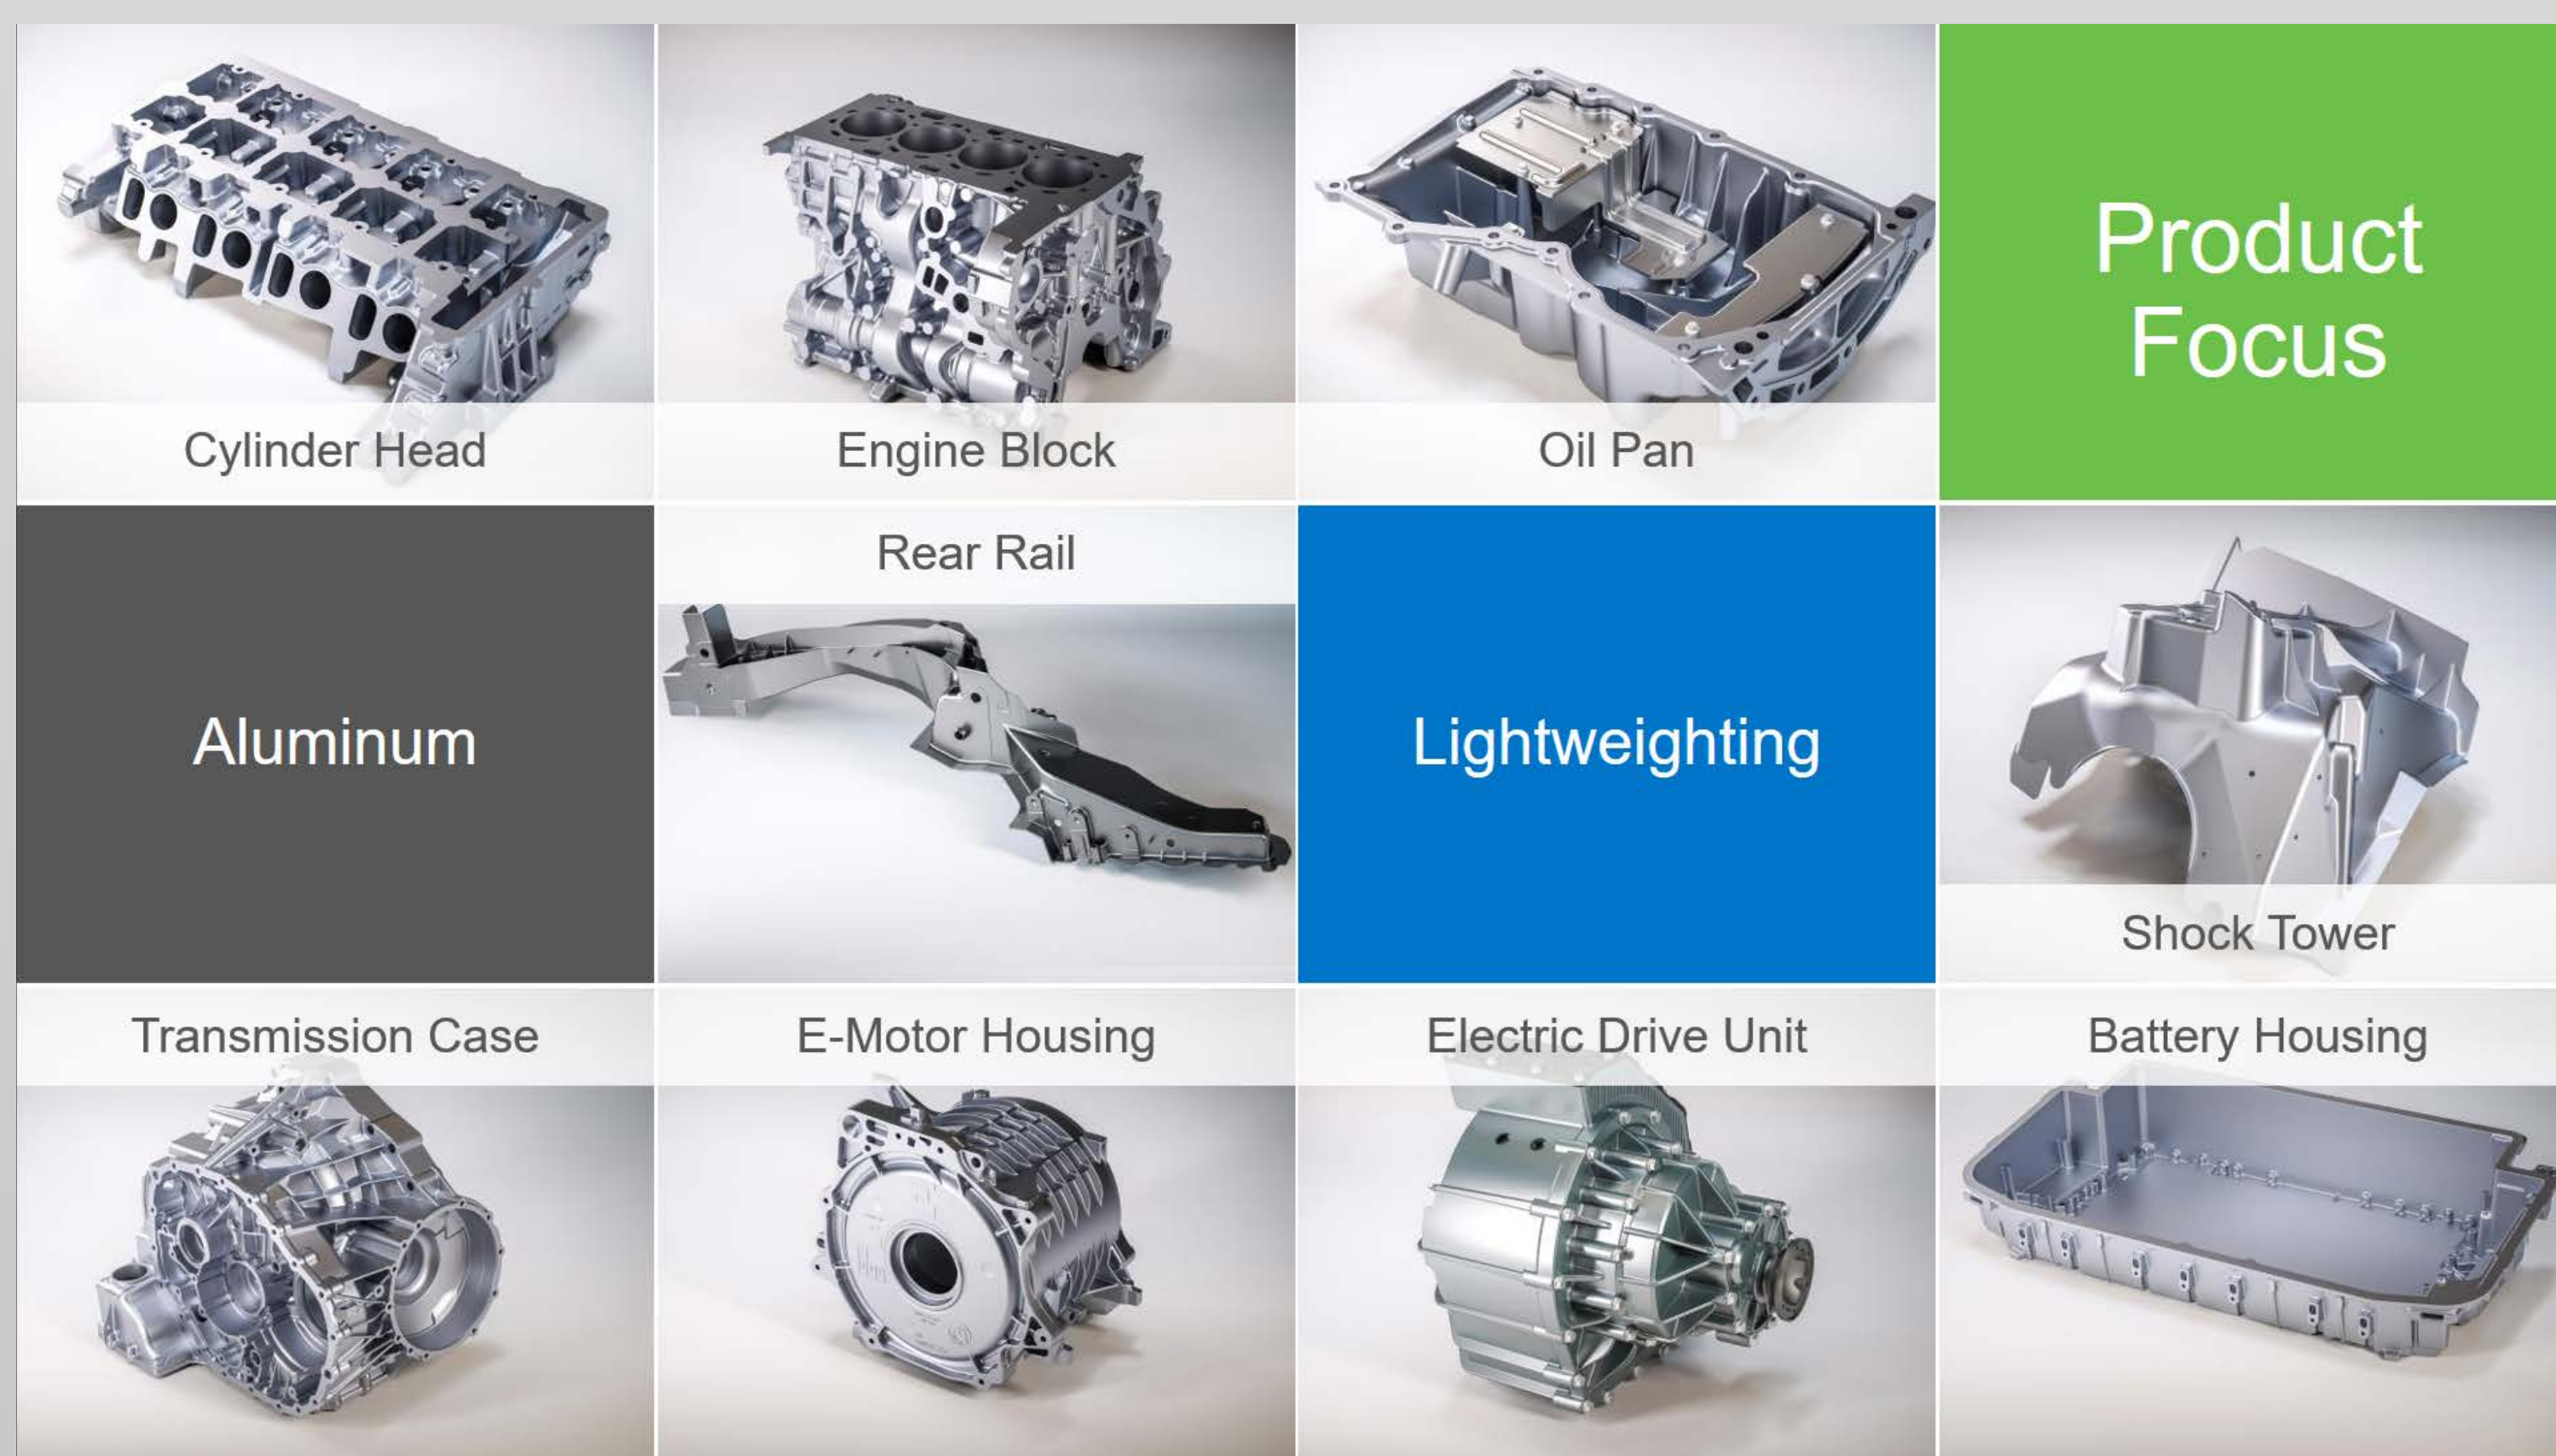

Talent development, continuous investment in research, technological innovation, and a sustained growth are the stepping stones behind Nemak's global leadership in its segment.
