

WEIQIAO European Technology and Innovation Center

Shandong Weiqiao Pioneering Group, ranked 199th in the Fortune Global 500 (2022), covers the complete value chains of the textile and aluminum industries with over 100,000 employees worldwide. The Group includes 3 listed companies and is committed to the sustainable development of the aluminum and textile industry.

WEIQIAO Germany GmbH, as the European headquarters of the Chinese Shandong Weiqiao Pioneering Group, helps the group to generate value with a strong emphasis on giving back to society and building a world-class, globally competitive, and sustainable enterprise.

WEIQIAO European R&D Center is expected to become a leading European research facility, an integration platform for advanced industrial applications, and a focal point for global talents in related industries. Current R&D areas are lightweight technology, new energy, recycling and textile.
